Ski Hill Updates

Our mountain upgrades are ready to take your skiing and riding to the next level! Here's what's new:

2 New HKD Fan Guns making for a total of 4 fan guns: Let it SNOW!

We installed New Nozzles for our 34 stick guns to optimize snowmaking.

We made tweaks to existing systems to enhance performance.

Mountain Operations is pumping snow day and night, working around the clock to lay down the perfect base. We're counting the days until we can say, "Let's ride!"

Night Skiing Just Got Better!

So long closed ribbon and HELLO to NIGHT SKIING on TIMBERDOODLE. We just installed new lighting so you can shed the trail morning, noon and night.

Eagle Trail: We upgraded the lights on Eagle so now you can see yourself soar. Upgraded lights mean this fan-favorite is brighter and better than ever at night.

Nordic (Cross County) Skiing Updates

The Nordic scene is buzzing with updates:

Road Access: We are working with the municipality to plow and salt Aerie Drive, to allow easier access to the X country trails at the top of the hill.

Trail Improvements: Big strides have been made on cross-country trails, especially **7th Heaven**.

New Grooming Devices: we have purchased a new roller and a drag with track-setting capacity to keep the trails in peak condition.

Grooming updates will be shared as the season progresses.

Collaborations: We're teaming up with **Northside Nordic (Seaview)** to elevate grooming and maintenance standards across the board.
